TEXTILES + WALLCOVERINGS

2024 Spring Anthurium Collection - Textiles + Wallcoverings Overview

Brentano's Spring 2024 Collection, Anthurium, is a compilation of textiles and wallcoverings woven into painterly layers. Designed through the lens of an artist, the collection showcases Founder Iris Wang's deep love for painting and the wide breadth of artistic skill she brings to each versatile design.

Drawing back on their roots, the collection features a wide range of multi-faceted indoor/outdoor selections from which Brentano has come to be known. Acknowledging the growth and success of lively outdoor colorways in Brentano's diverse span of outdoor textiles, Wang set out to introduce a "Color Neutral" line of hues. "I wanted to bridge the upbeat, vibrant colors of our current outdoor fabrics with distinguished "Color Neutrals"; colors I feel are a bit more tailored and adaptable for interiors both indoor and out," says Founder, Iris Wang. "This new introduction of "Color Neutrals" generates fluid color connection throughout the collection and each of its patterns."

Highlighting magnificent and lush fabrics, the collection features 4 outdoor velvets that create striking monochromatic design spaces. The collection also showcases Brentano's first PVC-Free Type II wallcoverings, Guild and Lona. A new challenge for the team, the studio explored different mediums to create depth and painterly-like qualities. Through their pursuit of artistic growth, the 2 wallcoverings were born, bringing to life a world in which thick brushstrokes and whimsical layers of color transport one to impressionist-styled interiors.

A collection of palettes and expertly designed textures that enhance spaces and transform designs, the collection takes us on a journey celebrating the artists' decorative and exquisite designs. Melding the textures, shadows, and painter-like qualities in each piece, the designs in the Anthurium collection highlight a free-hand style of artistic expression. The 12 textiles and 2 wallcoverings are an adaptable selection of products that offer dimension, complex constructions, hours of design work, and focused attention to detail.

1334 Gouache

A fashion mainstay, Gouache is an inviting and homey boucle that is both decadent and polished. A transcendent fabric made from 60% Cotton, 20% Polyester, 10% Viscose, 5% Wool, and 5% Acrylic, the distinct layers of yarn in Gouache are the quintessential display of comfort and luxury wrapped into one. Gouache is a substantial stronghold for design spaces with a chunky, natural fiber hand and 7 opaque colorways, including neutrals Oat Milk and Tumbleweed, to more adventurous colors like Teal Damsel fly. Gouache (a type of opaque, matte paint made from pigments bound in water-soluble gum with the addition of a white pigment) delicately mimics its namesake with a twisted cotton warp of two yarns, often using white, garnering visual interest throughout its thick content and hand. Passing Cal 117 with an abrasion resistance of 100,000 Double Rubs (Wyzenbeek, Cotton Duck) Gouache is a reliable fabric for sofas and lounge chairs. V111 Lona

A masterpiece of painted layers, Lona showcases Founder Iris Wang's artistic talents in an oversized PVC-Free statement, bleach cleanable Type II Olefin Composite with an Osnaburg backing wallcovering. Using an expanse of colors in many differing opacities, Wang took inspiration from old stucco walls to create a scene of delicate color shifts on canvas. Painted first as an oil painting, the piece flows like a color-field landscape, pulling you in with each deliberate tone-on-tone color shift. "You can feel the life of the piece," states Wang. "I love pottery, and this piece reminds me of how you can feel the potter's hand through how they create their work, and I envisioned this when creating this painting. I wanted the viewer to see the painter's hand and feel tangible life in the piece." With the wall as her canvas, Lona (Spanish for canvas) creates an abstract feeling that can be used as a feature wall or an environmental experience. In 9 dreamy colorways, some highly reminiscent of impressionist paintings, Lona can efficiently serve as the protagonist in the room or as an understated texture in residential, hospitality and contract designs.
