

# ALCHEMY

The new fabric collection from Brentano fabrics.

Grounded in the seemingly magical process of transforming elements into something new, Alchemy is a magnificent collection of awe-inspiring textiles. Influenced by nature and our ever-diverse and changing environment, the Brentano Design Studio meticulously curated the Alchemy Collection's thirteen versatile fabrics to be both physically and texturally stunning. By refining and emphasizing the beauty that lies within the details, the Fall 2021 collection accentuates organic patterns using mixed yarns, space-dyed yarns, and bouclés to create natural and alluring designs.

Highlighting color trends within the design industry, the Alchemy collection features warmer tones like Sundial and Antelope Canyon throughout its many patterns and colorways designed to scheme with one another playfully. Further enhancing Brentano's line of distinct textiles, Alchemy introduces versatile textures, flowing patterns, and dimensional fabrics that delight the eye. This carefully crafted range of textiles offers a depth of interest and movement within a room providing the groundwork for striking hospitality, contract, and residential interiors.

Carefully curated by the Brentano Design Studio, the Alchemy collection is the culmination of Founder and Artistic Director Iris Wang's "wish list." A distinctive blend of textiles with subtle nuances creating variety and uniqueness within each pattern.

The distinguished textiles of the Alchemy Collection pair with highly useable anchor fabrics, all of which are melded by sophisticated and luminous colorwork. These original textiles showcase elegant movement in their patterns while simultaneously offering unique features, some the very first of their kind.

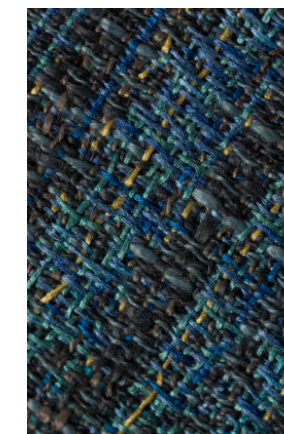

Soft and supple with a pebbled texture, Brentano's new eco-friendly silicone vegan leather Marvel goes hand and hand with our brand ethos of beauty + performance. Acceptable for outdoor use this two-toned silicone is the optimal choice for poolside lounges or beautiful beachside cabanas.

Regal, luxurious, and rich, Oracle is Brentano's first-ever FR velvet drapery. In 16 sumptuous jewel-toned colorways, this textile is attractive with an elegant sheen that can enhance and transform the drabest of interiors to the most sophisticated and chic spaces.

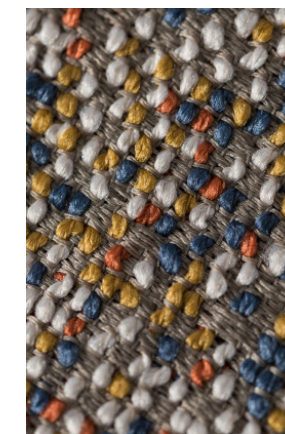

Other highlights are the playful and bold neon indoor/outdoor fabric, Sol, the dazzling and glamorous damask weave Pixie and the protagonist in the room, the alluring Titania, the foundation for which the Alchemy Collection was born.

The Alchemy Collection is a studied foundation of beautiful and rich textures, dramatic and striking patterns, and majestic and diverse colorways. All thirteen textiles within the line showcase the long-standing qualities of beauty + performance, you have come to know with the Brentano name.

## TEXTILES

Thirteen distinguished textiles pair with highly usable anchor fabrics, all of which are melded by sophisticated and luminous colorwork.

Alchemy, in many ways, represents our intention to design fabrics with both beauty + performance in mind. The yarns and dyes begin merely as vessels to create a broader picture. As the process continues, they transform into works of art that tell a captivating story as they delicately dance with one another to complete each woven piece. Being the orchestrator of this process is a true joy; the process becomes the purpose."
