2021 Fall Alchemy Collection - Wallcoverings Overview

Laying a foundation for the future, Brentano brings rich texture and diverse design to the world of wallcovering with 4 highly anticipated introductory patterns.

With a background in printmaking, Founder and Artistic Director Iris Wang has expanded her continuously evolving line of interior offerings by leaning on her Graduate Studies in Art. Featuring 4 stunning and multi-faceted selections, pulling inspiration from well-loved textile patterns, Brentano brings thoughtful design to the world of wallcovering. The perfect marriage of beauty and balance, the collection highlights bold, striking patterns and minimal, serene designs with organic pattern work. "The importance is in the balance. It's not only beautiful but also usable" says Founder Iris Wang. "Wallcovering is the lead when creating an atmosphere. Textiles and furniture are then added in to augment the design. For me, it's exhilarating that we have created something that stands alone but also seamlessly pairs with our textile line to create interior spaces that tell a story and evoke emotion."

Continuing the line's focus on sustainable products and environmentally friendly processes, most new introductions meet specifications of the CA 01350 VOC Emissions Standard. Furthermore, the pattern Celeste is composed of 13% post-consumer recycled content. All Type II Vinyl, the 4 pattern selections are easy to clean and durable with stress-free seam matching, making them user-friendly and practical for design interiors.

The attraction to Brentano's wallcovering offerings not only lies in its artistic pattern work but the harmonious pairing of over 2,000+ textiles, making the Alchemy Collection tremendously versatile. The collections complement one another with sophisticated choices and standout introductions, creating a balanced synergy for designers.

A studied foray into wallcovering, the Alchemy Collection is a timeless addition to Brentano's distinct offerings, accentuated by rich colorwork and elevated pattern composition.

Alchemy Collection - Wallcovering Talking Points

- The four patterns in the Alchemy Collection Wallcovering launch are Brentano's first foray into the world of wallcoverings!
- Three of the patterns in the collection are based on Brentano textiles, including Andromeda (Olympia), Fervor (Effervescence), and Chateau (Manderley).
- All of the patterns are Type II vinyl, making them user-friendly and easy to clean.
- The collection of wallcoverings was designed to seamlessly match and flow with the textiles in the Alchemy Collection.
- Founder and Artistic Director, Iris Wang has been interested in creating a line of wallcovering for many years.
