ROYA COLLECTION

TEXTILES + WALLCOVERINGS

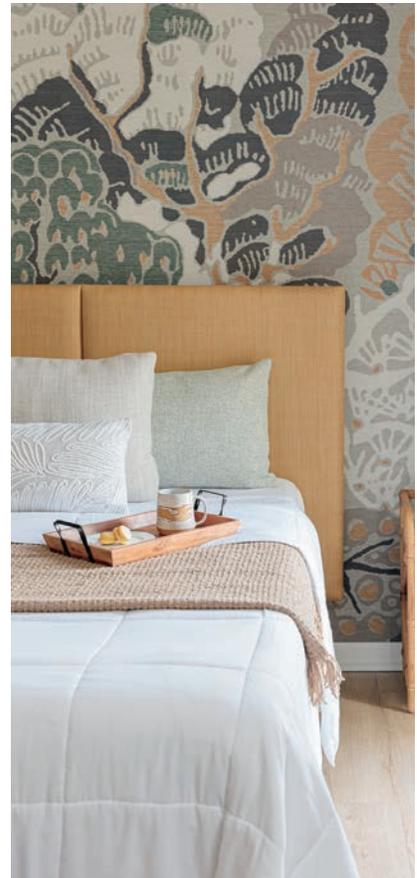

With charming patterns and soft colorways, the Brentano Design Studio has captured the nuanced characteristics of our dreams with each and every fiber.

2023 Spring Roya Collection - Textiles + Wallcoverings Overview

Soft, poetic, and tailored, Brentano's Spring 2023 Collection, Roya, is a timeless offering of sophisticated textiles + wallcoverings. The collection name is derived from Arabic origin, meaning vision or dream, and is inspired by the fantastical and delicate fleeting moments that come to us in times of peace. Each stunning pattern highlights our dreams' subtle and delicate journey and the phases of progression from tranquil to mysterious.

Comprised of light, muted tones, the Roya Collection evokes emotion, creating soothing spaces with delicate movement and grace. Using feelings to create imagery, the Brentano Design Studio curated a distinct pairing of 15 textiles and 2 wallcoverings that play off our passions and infatuations. While each pattern is unique and desirable on its own, the textiles also build off one another to create light, monochromatic design spaces with varying levels of pattern and texture.

A tremendous grouping of usable fabrics, the Roya Collection features fabrics + wallcoverings that span many applications, including contract, hospitality, and residential designs. Using novelty yarns throughout, Roya highlights chunky textures, contemporary anchor fabrics, and bold horizontal designs for the most discerning interior spaces.

Roya Collection - Talking Points

- Visually rich, the collection features Brentano's first-ever wallcovering mural with a stunning blend of colorwork. This collection's centerpiece, Haiku, stands at an impressive 11-foot height, pulling inspiration from its textile counterpart Utopia. This immense undertaking came to life under the direction of Founder and Artistic Director Iris Wang and the talented Brentano Studio Team. With 4 stunning colorways each with 26 color separations, Haiku showcases Brentano's relentless journey to create art that is, as our motto states, "beautifully balanced" for home interiors.
- Three usable indoor/outdoor sister fabrics, Bhramari, Pranayama, and Ujjayi, are affordable everyday anchor fabrics that create layers and dimension in design spaces.
- Brentano's first ever luxury outdoor embroidery fabrics, Ballad and Stanza.
- Raffia-inspired Fantasia is a tailored selection for shade outdoor spaces. In the same colorways, sister fabric Fantasia Panel offers sophistication with acoustic properties for panel design applications.

ROYA COLLECTION - TEXTILES + WALLCOVERINGS

4372 Aysel

Like a stream of water rushing in, Aysel's combination of movement and refined coloring coincides with its name's Turkish meaning of a flood or stream of moonlight. Much like works of impressionist painters, Aysel uses visual angles, soft brushstrokes, light, and the inclusion of movement as crucial elements of its design. Elegant yet decorative enough for modern homes, Aysel comes in 8 attractive colorways, including a soft blush and a chic, warm grey. Reminiscent of marble or wood grain, this 55" width soft chenille with a matte finish is fluid throughout with a lustrous warp yarn to create a subtle rhythmic design flow. Aysel benefits from being bleach cleanable with an abrasion resistance of 75,000 Double Rubs (Wyzenbeek, Cotton Duck) and Brentano's cross-linked stain-resistant finish Tri-sistant, making Aysel the essence of beauty + performance.

4526 Xanadu

Xanadu, meaning idyllic or dreamy beauty, is a 54" wide textile with multiple layers and colorways. The Brentano Design Studio loved the color blocking, geometric design, textural layers, and comprehensive weave structures in Xanadu that create various unique color layers. Ideal for healthcare, senior living, and hospitality design applications, Xanadu comes in 8 colorways, from the softer Seaside to the bold Hidden Treasure and Halcyon Feather. Durable with a fine nylon warp, Xanadu is exceptionally versatile with an Alta™ finish and Acrylic backing, an abrasion of 100,000 Double Rubs (Wyzenbeek, Cotton Duck), and bleach cleanability, making it a smart choice for high-traffic designs. With 31% Post-Consumer Recycled Polyester, Xanadu is one of Brentano's many eco-friendly fabrics and is available for possible LEED points.

V109 Haiku

A long-awaited and highly anticipated project, the Brentano Design Studio's first foray into murals is a stunning display of curated colorwork and design. This mural is comprised of three panels, each seaming at 52" in width. Digitally printed Haiku gestures a bespoke woven beauty, depicting a dreamlike landscape of whimsical foothill forests and sumptuous gardens. At an 11-foot height, Haiku's true-to-scale design sets the scene and transports onlookers into its simple, abstract landscape of semi-stylized brushstrokes and organic elements. A monumental project for the design studio, Haiku is the culmination of complex design and focused hours of concentration and time. Drawing inspiration from its textile counterpart, Utopia, Haiku plays off its Japanese origin with traditional storytelling and seasonal references. Like a beautiful tapestry, Haiku is a poetic dream in 4 stylized, rich, quiet colorways, including Saguaro Flower and Nashville Warbler, offering itself to many design applications.
