

BRENTANO™

TERRA COLLECTION

WHERE BEAUTY MEETS RESPONSIBILITY

TERRA

In a world awakening to the urgency of sustainability, Brentano proudly introduces Terra, our first fully biodegradable textile collection. A celebration of nature, innovation, and intentional design, Terra redefines what it means to create with care.

More than fabric, Terra is a tactile narrative. From the gentle elegance of Avani and Dhara to the grounded richness of Kai and Zola, each design invites touch and tells a story; one where beauty is not only seen but deeply felt. With seven patterns layered in textures and hues, the collection brings together soothing neutrals and rich, livable colors to shape immersive, welcoming spaces.

Crafted with PrimaLoft® Bio™ polyester and CiCLO® technology, these polyester fibers are engineered to return gracefully to the earth, breaking down into natural elements such as water, CO₂, and organic matter under specific conditions like oceans or managed landfills. This is innovation with intention: high-performance fabrics that embody responsibility as much as resilience. With accredited lab reports supporting every pattern, Terra offers peace of mind for contract, hospitality, and residential interiors seeking truly sustainable design solutions with the future in mind.
